Dr. Joshua Lederberg
Department of Biochemistry
University of Wisconsin
Madison, Wisconsin

Dear Doctor Lederberg:

I am trying to locate cultures of fungi and bacteria having single deficiencies for amino acids and vitamins for use in class work. I thought you might possibly have cultures of Escherichia coli and Neurospora showing such deficiencies. If you have such cultures and could send me transfers, I would be most grateful.

If we can be of service to you, please let us know.

Sincerely yours,

Ilda McVeigh
